

Jenesia1 Products of High Performance and Secure Network Infrastructure. (JPHP-SNI)

- **Next-Generation Enterprise Networking**
- **Experience unmatched performance and security with our advanced network solutions:**
- **Extreme Secure Fast Throughput (ESFT):**
Engineered for high-speed, secure data transfer to meet the demands of modern enterprises.
- **JPHP-SNI:**
Our top-of-the-line, state-of-the-art interface delivers exceptional bandwidth and robust security for your critical operations.
- **Jenesia1 5G-WiFi-7/8 Access Point:**
Enjoy seamless connectivity with router-to-router mesh networking and support for Category 8 (Cat8) cabling, ensuring ultra-fast and reliable connections.
- **Enterprise-Grade Performance:**
Achieve speeds up to 46 Gbps—ideal for datacenter backbone networking and high-performance environments.
